WHO WE ARE?

Goinnovior Technology is an IT Solution and Consulting Firm, leading specialist in the world of Information and Communications Technology (ICT), Information Security (InfoSec) and Innovation Advance Solutions . We offer dynamic IT services and specialized support and are committed to provide comprehensive solutions & services to midmarket businesses and focused strategic consulting services to enterprise businesses. In short, we help dynamic organizations align their IT services with their business requirements.

WHY WE ARE DIFFERENT?

Goinnovior Technology works in collaboration with their clients to design, deploy, operate, and improve the IT services that are essential to their businesses. In addition, the extent of product and service offerings makes Goinnovior a valuable contributor in this industry as IT services company, where we are known for using both the reliable tested solutions and new innovative methods depending on what suits our clients' needs the best. Using a consultative approach, our experts identify which areas of your business can benefit from our services. This transforms IT from an overhead, providing commodity services, into a strategic value-add for your business. Goinnovior Technology is committed to meeting their client's needs as well as working within their budgetary parameters.
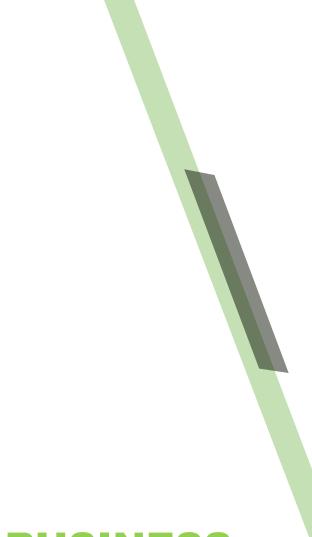

ABOUT US

OUR VISION

Achieving 100% customer satisfaction by delivering quality products and services at an affordable cost. Our forward vision is to strive to become an entity in technology based corporate solutions, capable of demanding unconditional response from the targeted niche. We also believe that for our scope of improvisation – sky is the limit and we are always ready to take our achievements to the next level. We are growing and would always like to remain on the growing streak.

OUR MISSION

Enhancing the business operation of its clients by developing and/or implementing premium IT products and services. Goinnovior Technologies mission includes:

- Providing high quality software development services, professional consulting and development outsourcing that would improve our customers' business operations.
- Making access to information easier and securer (Enterprise Business).
- Improving communication and data exchange (Business to Business).
- Providing our customers with a Value for Money and
- Providing our employees with meaningful work and advancement opportunities.

OUR VISION
OUR MISSION

BUSINESS PRINCIPLES

Goinnovior Technology works on business cases in order to resolve business critical problems. We are always pursuing the best possible options for our clients i.e. Development vs existing applications. When development is required we allow flexibility in the development cycle. Were possible we aim for standardization in all developed solutions. Analysis of our clients business processes and change control is critical for us. It is important that our Clients' data are central in their business, easy to access and also credible for making business critical decisions. We also offer our clients a value offering of Business Intelligence/Consulting. We believe in-

- Motivation.
- Collective responsibility and leadership.
- Professionalism and ethics.
- Adding values to our client needs.
